Re: Need for Archaeological Clearance for Mining Notice **UTU-76413**, Located in T23S, R21E (SLM), **Sections 9, 10**, Grand County, Utah

Dear Mr. Day:

Thank you for submitting your mining notice to this office for review pursuant to 43 CFR 3809 surface management regulations. We received the notice on July 27, 1998, and have assigned it BLM case file number UTU-76413. Please refer to this number in all future correspondence regarding this mining notice.

We have made a determination that an archaeological clearance will be necessary for the area covered by, and adjacent to, UTU-76413. No operations, as defined in 43 CFR 3809.0-5(f) may be conducted under UTU-76413 until this clearance has been completed. Because of our pre-existing workload, it will not be possible for our staff archaeologist to even initiate the clearance process until October of this year at the earliest. We suggest that it may be to your advantage to hire a Cultural Resource Consultant to perform the necessary clearance. A list of consultants permitted to work in Utah has already been supplied to you by this office. If you have any questions, please contact Mr. Sai Venticinque at (435) 259-2141.

Sincerely,

/S/ WILLIAM C. STRINGER

Assistant District Manager  
Resource Management
